About this course

- This course provides foundational level knowledge on security, compliance, and identity (SCI) concepts, and related cloud-based Microsoft solutions and technologies.

- The audience for this course wants to understand how Microsoft SCI solutions can span across solution areas to provide a holistic and end-to-end solution.

- Learners should have the following prerequisite general knowledge:
  - General understanding of networking and cloud computing concepts.
  - General IT knowledge or any general experience working in an IT environment.
  - General understanding of Microsoft Azure and Microsoft 365.

- The content for this course aligns to the SC-900 exam objective domain.

Course Agenda

- **Module 01 –** Describe the concepts of Security, Compliance, and Identity.
- **Module 02** – Describe the capabilities of Microsoft Identity and Access Management Solutions.
- **Module 03** – Describe the capabilities of Microsoft Security Solutions.
- **Module 04 –** Describe the capabilities of Microsoft Compliance Solutions.

Certification areas (SC-900)

Study areas	Weights
Describe the Concepts of Security, Compliance, and Identity.	5-10%
Describe the capabilities of Microsoft Identity and Access Management Solutions.	25-30%
Describe the capabilities of Microsoft Security Solutions.	30-35%
Describe the Capabilities of Microsoft Compliance Solutions.	25-30%

- This course maps directly to the exam SC-900 Microsoft Security, Compliance, and Identity Fundamentals.
- Percentages indicate the relative weight of each area on the exam.
- The higher the percentage, the more questions you are likely to see in that area.
